Russ Given Building In U.S. Zone Of Berlin

Wish To Avoid Threat Of Blockade

Berlin, Jan. 21.—(AP)—The U. S. Army's Berlin command backed down tonight before baiting from the East and returned a disputed building in the American sector to the Soviet-controlled railway system.

Maj. Gen. Maxwell D. Taylor, the commandant, cancelled seizure of the building by the U. S. Property Control Office for the west Berlin city government, ordered west Berlin police to withdraw and turned the structure back to the railway system, the Reichsbahn.

The Soviet authorities have seized upon the affair as an excuse to harass the residents of West Berlin. Taylor explained.

An hour after Taylor made his announcement, the west police departed from the building, the former Reichsbahn headquarters located just inside the American sector near the Russian border.

East zone communist guards in the employ of the Reichsbahn resumed their posts in the nearly empty building.

The property control office seized the building Tuesday, contending the West Berlin government needed office space and the Reichsbahn was using only 40 of the 600 rooms.

The railroad and the Russians hit back with the assertion the telecommunications setup in the basement was disrupted by this action. They slowed down the city's elevated train service to half schedule and threatened to disrupt inter-zonal trains.

Coincidentally, the Soviet turned back 19 Berlin trucks from the Helmsstedt checkpoint on the Russian-British zonal border. This seemed like a repetition of the tactics that preceded the full-scale blockade imposed in June, 1948.

These truck drivers returned to Berlin tonight and explained, however, that they had failed to obtain the proper clearance papers for household goods they were carrying.

The Russians now demand that the owner either accompany household goods consigned to the west or that he see them for a pass. This measure was installed a few days ago to stop the removal of any personal possessions of an eastern German trying to flee from the communist sphere.

Striking Miners Will Vote On Work Orders

Pittsburgh, Jan. 21.—(AP)—A field general for John L. Lewis today advised a bloc of rebellious soft coal miners to "let your stomachs decide" if they will go back to work on Monday.

With hunger and anger on the rise, most of the 90,000 strikers—those in southwestern Pennsylvania and northern West Virginia—tomorrow will determine by ballot if they will:

1. Heed the order relayed by United Mine Workers district leaders from union chief Lewis to end their two-week-old strike and dig coal three days a week without a contract.
2. Give their leaders an unequivocal "no" and stay out of the pits until they get a contract and can work five days a week.

Core of the rebellion is UMW District Four which embraces the coal-rich area around Uniontown, Pa. Its president, William Hynes, called local officers together today and ordered them, despite their sentiments, to poll their men again. "Let your stomachs decide," he told them.

A similar vote was taken by locals last weekend. The answer was no. Nine months of sporadic idleness for the bituminous diggers have brought reports of widespread hunger among the diggers.

But as their hunger mounted so did their ire.

John Ozanich, president of the UMW's biggest local, told Hynes: "I'll call them together for a vote. But I'm sure they'll decide to stay out."

He heads 2400 miners employed at the H. C. Frick Coke company's Robena diggings.

A few others echoed Ozanich's remark.

Other local officials complained they were unable "for more than a week" to get in touch with district officers. Lewis was drawn into the discussion when a group of local leaders protested the directing of the UMW chief's suggestion to district instead of local officers.

Boston Detectives On 'Hot' Money Hunt In New York

Boston, Jan. 21.—(AP)—Boston detectives were on a "hot" money hunt in New York today as a report of "some progress" came from the chief director of the nationwide search for the gang that bagged a million dollar cash loot.

Deputy Police Supt. James F. Walby gave the progress report but wouldn't say what he based it on.

"It's not a new lead," Daley said, "but we've got some good ones and we've eliminated a lot of bad ones."

The Federal Bureau of Investigation has sent its inspector, Myron E. Gurnea, to Boston to direct its part in the inquiry. An FBI spokesman said in Washington that Gurnea went to Boston the day after the armored car firm was robbed. He added that the inspector is in charge of FBI efforts on the case, and is working closely with local authorities.

The switch to New York and the release of a Brink's employee with 22 years service were today's major police moves in the four-day-old search for the gunmen who raided a counting room of Brink's armored car service last Tuesday night.

4,700 Elementary School Teachers Needed In Illinois

Chicago, Jan. 21.—(AP)—A government agency says that Illinois needs about 4,700 new elementary school teachers annually during the next two or three years.

The federal Bureau of Labor Statistics reported today a survey indicated this number of new teachers is required if the state's teaching staffs are to keep pace with increasing enrollments and to replace teachers who leave the schools.

The study was made by the bureau in cooperation with the Veterans Administration.

It found that less than 1,000 college students completed courses last year qualifying them to teach in Illinois grade schools. The report said that 4,000 of the 4,700 replacements needed each year would be required to replace those leaving the profession, if the withdrawal rate continues at 12 per cent. Some of the more than 2,000 teachers holding temporary certificates are expected to leave their jobs also.

Tax-Cutting Drive On Excise Levies Picks Up Steam

Washington, Jan. 21.—(AP)—A tax-cutting drive aiming for a "quickie" slash in excise levies threatened on Capitol Hill today ahead of President Truman's forthcoming one-package tax plan.

Chairman George (D-Ga.) of the senate finance committee said the Senate may be compelled "to take some action quickly on excises without waiting for the House to act on the president's program."

"And when the Senate takes up the excise legislation," he told reporters, "there is no telling how deep the cut will go. The sentiment is so strong for reducing these taxes that the cut may go to \$1,500,000,000."

Some administration leaders fear that if congress cuts excises in a "quickie" bill it then will pigeon-hole legislation recommended by Mr. Truman to make up the loss by higher taxes in other directions. George disagreed.

The White House announced today that Mr. Truman's tax program will be transmitted to Congress on Monday.

It is expected to call for a slash of upward of \$750,000,000 in excises, such things as furs, jewelry, luggage, toilet preparations, passenger tickets, telephones and telegrams and air freight.

This was strangely in line with a prediction last Sunday by Yen Hsi-Shan, Nationalist Chinese premier, that the Russians are going to give the Chinese Reds a free hand in southeast Asia in return for Russian control of Manchuria, Inner and Outer Mongolia and Sinkiang.

The Communist demand was aimed not at Yen, but at U. S. Secretary of State Acheson, who on Jan. 12 said the Russians were moving to take over those four large northern and northwestern areas.

Closely paralleling an angry denial issued today in Moscow by Soviet Foreign Minister Andrei Vishinsky, the Chinese Red statement declared the American version was compounded by "the most incompetent political charlatans."

Diplomats Say Acheson Note On China Hit Russ Sore Spot

Washington, Jan. 21.—(AP)—State department officials decided today that Secretary Acheson's attack on Russian policy in China had found a sore spot in Soviet relations with the Chinese.

That was the initial reaction here to Soviet Foreign Minister Vishinsky's blast in Moscow early today when he accused Acheson of lying by having said that Russia is taking over four areas of northern China. The state department declined to make an official comment on the Vishinsky statement, but Chairman Connally (D-Tex.) of the Senate foreign relations committee declared the Russian foreign minister had used language "unfitted for courtrooms and statesmanlike communications."

"I am amazed," Connally said, "at the distempered and angry language of Foreign Minister Vishinsky. Mr. Vishinsky does not talk like a foreign minister."

"He talks like he did when he was prosecuting and convicting victims of the purge in Russia years ago."

It was not so much the angry tone of Vishinsky's reaction to the Acheson charge as it was the evidence of the importance that Russia attached to the statement that impressed top state department officials, they said privately.

The statement was handed out to foreign correspondents who were summoned to the Kremlin in the past midnight hours, rather than simply being printed in one of the Moscow newspapers or being distributed by the Tass agency, which is the routine way of handling such things in Moscow.

The statement used such words with respect to what Acheson had said as that his declaration was "monstrous and awkward" and "lying and crudely slanderous."

Far from dismembering northern China, Vishinsky argued, the Soviet Union and China have complete respect for each other's territorial integrity.

Churchill Blasts Socialism As Weak Bar To Communism

London, Jan. 21.—(AP)—Winston Churchill declared tonight that socialism is out of tune with the times and is the "weakest defense against communism."

Socialist restrictions have paralyzed Britain and blocked her path to recovery, he said.

In his first 1950 campaign speech broadcast from his home at Westminster, the 75-year-old Conservative party leader urged British voters in the Feb. 23 general election to spurn the Labor party's bid for a return to power after almost five years' rule.

The issue, he said, "is whether we should take another plunge into the 'freedom, initiative and opportunity' that once won for Britain 'glorious ascendancy.'"

"Socialism has been found in all European countries, in bond or free, to have been the weakest defense against communism," he asserted.

Declaring that except in Scandinavia Socialist parties were on the decline throughout Europe outside the iron curtain, he said:

"In taking another lurch into socialism at this juncture, we should be moving contrary to the general trend and tide of reviving European 'liberty'."

Still more we should be out of harmony with the states and nations of the English speaking world, the British dominions and the United States."

He recalled that New Zealand and Australia, two of the dominions, "have recently shaken themselves free from a prolonged trial of socialist governments."

Flood Crisis In South, Northwest Seems To Be Past

By The Associated Press

The current flood crisis appeared to be passing Saturday from the Midwest to the south.

Winter softened its punches, meanwhile, in nearly every section of the country. Skies were generally fair except for the northern fringe of states and temperatures were somewhat higher.

The bloated Mississippi and Ohio rivers held steady at their confluence in Cairo, Ill., but conditions were termed critical along the St. Francis river in Arkansas.

The Red Cross announced it is setting up centralized disaster relief headquarters in Little Rock to aid some 1,500 flood refugees there. An estimated 9,000 persons have been made homeless in Arkansas and Tennessee.

Robert Edison, Red Cross Midwest director, said Arkansas now was taking a harder mauling from floods than any other state.

Above Cairo, flood waters were receding virtually everywhere on the Ohio and Mississippi rivers and their tributaries.

Nearly 25,000 persons have been driven from their homes this month by floods in the Midwest and south.

However, many have returned or will do so in the near future in the flood area north of Cairo.

Still out are 11,400 residents of the Birds Point-New Madrid floodway in southeast Missouri. They evacuated in expectation that army engineers would flood that area to take the strain off of levees elsewhere along that stretch of the Mississippi river.

Springfield Man Is Valedictorian Of U. Of I. Class

Urbana, Ill., Jan. 21.—(AP)—Robert J. Hight of (1709 S. Douglas) Springfield, Ill., is valedictorian of the University of Illinois' February graduating class.

The 24-year-old chemistry student topped scholar among 1,984 candidates for degrees, scored a perfect "A" or 5.0.

Co-salutatorians are Roland J. Benjamin, 21, of rural route 2, Williamsfield, Ill., engineering student, and Elmer M. Schimmel, 20, of Lawrence, N. Y., a liberal arts student.

Both scored 4.97.

Hight will become a research assistant in organic chemistry at the University of Wisconsin.

He spent 26 months in the army, 20 of them in the Philippines as a sergeant in the medical department.

Benjamin will remain at the University of Illinois to study theoretical and applied mechanics while Schimmel, a pre-medical student, will attend Yale medical school.

Ike's Brother Is Named President Of Penn State

Harrisburg, Pa., Jan. 21.—(AP)—Milton Eisenhower today was elected president of Pennsylvania State college.

Eisenhower, president of Kansas State college at Manhattan, Kas., since 1943, was chosen unanimously by the Penn State board of trustees at their annual meeting today.

James Milholland, Pittsburgh attorney and president of the board, said Eisenhower, brother of General Dwight D. Eisenhower, now president of Columbia university, will assume his duties "on or about July 1."

Eisenhower succeeds the late Dr. Ralph Dorn Hetzel who died in October, 1947. Milholland has been serving as acting president of the school at State College, Pa., since that time.

Eisenhower, 51, will be Penn State's 11th president.

REP. VELDE PLEASED WITH HISS CONVICTION

Washington, Jan. 21.—(AP)—The perjurer conviction of Alger Hiss was greeted with approval today by Rep. Velde (R-Ill.). He said the New York verdict "looks President Truman's red herring and I hope he enjoys eating it."

Velde, a member of the un-American activities committee, referred to the label Mr. Truman pasted on the group's investigation of communist activities in the Republican 80th congress.

Alger Hiss Convicted On 2 Perjury Charges

Finns Reject Charges Of Keeping Criminals

Helsinki, Finland, Jan. 21.—(AP)—The Finnish government tonight rejected Soviet charges that it had been harboring war criminals wanted by Russia.

Replying to Moscow's note of Jan. 1, the Finns said they were holding for questioning four of the 55 persons specifically listed by the Soviet government. But the Finns did not promise to deliver them to Russia.

The Finnish reply said an investigation was being made as to whether they ought to be extradited to Russia under provisions of the 1947 peace treaty. The answer declared Finland is striving loyally to fulfill provisions of that treaty, but also is bound to observe international laws guaranteeing the rights of individuals—presumably a reference to the right of asylum of political refugees.

Of the four persons detained, three have become Finnish citizens since the war and one is a stateless person who has lived in Finland since 1933.

The Finnish note was delivered tonight by Finnish Minister Karl Sundstrom in Moscow, a foreign office communique said, three weeks after Soviet Deputy Foreign Minister Andrei Gromyko accused the Finnish government of harboring 30 war criminals of Soviet origin. Gromyko listed 36 persons accused of the "most serious" crimes against Russia whose extradition he demanded.

He accused Finland of supplying them with false names and documents and thereby violating her 1947 peace treaty and her 1948 pact of friendship and alliance with Russia.

The Soviet demand was made just as Finland's presidential campaign was warming up, and was regarded by observers here as an effort to put political pressure on the country in behalf of Finland's Communist party.

In the election of presidential electors last Monday and Tuesday, President Juho Paasikivi won easily against communist and agrarian candidates. He is expected to have at least 172 votes when the 300 electors meet Feb. 15.

Reputation Ruined, Hiss Will Appeal

New York, Jan. 21.—(AP)—Alger Hiss, his state department reputation ruined and his brilliant career wrecked, faced prison bars today after a federal jury convicted him of perjury.

But Hiss, through his attorney, said he would fight the verdict which branded him a traitor at the end of a second tense trial.

"You can be sure the verdict will be appealed," said Defense Attorney Claude B. Cross within minutes after Hiss was found guilty on two perjury accounts.

The defendant, Yalta aide to President Roosevelt, was convicted of lying in his denials that he ever used his once-high state department office to aid Communist spies.

His maximum sentence is ten years in prison and \$4,000 in fines.

Hiss was convicted of lying twice—once when he denied giving away secrets and again when he denied any contact with Whittaker Chambers, ex-Communist spy ring courier, after Jan. 1, 1937.

The jury's double-barrelled guilty finding upheld the story of Chambers who was Hiss' chief accuser.

Throughout two long, dramatic trials, it was Chambers' word of Communist intrigue against Hiss' cool, stubborn denial.

Assistant U. S. Attorney Thomas F. Murphy, who prosecuted Hiss relentlessly through both trials, asked that he be clapped behind bars at once to await sentence.

Still Free on Bail

However, Federal Judge Henry W. Goddard allowed Hiss to continue free on his present \$5,000 bail.

Hiss was tried last spring and summer on the federal perjury charge. But the first jury disagreed on July 8 and was dismissed. That jury—ten men and two women—was out nearly 29 hours.

The second jury—eight women and four men—reached its verdict at 1:50 p. m. (CST), just 20 minutes short of 24 hours after receiving the case. They had returned from lunch only 42 minutes earlier.

Hiss gave no sign of emotion when the foreman, Mrs. Ada Conell, announced the verdict. His chin went up. His lips tightened. He folded his arms.

His wife, Priscilla, was by his side as she has been since he first was accused. She squirmed in her seat at the verdict and looked down at the floor.

Later, outside the court, the two embraced for an instant. Then they left the courtroom area, lips tight, faces stern, with no word to anyone.

President Urges Congress Review Aid To Korea Bill

Washington, Jan. 21.—(AP)—President Truman announced today he is urging "immediate action" by congressional leaders to retrieve the Korean aid legislation which the House rejected by one vote Thursday.

He gave no limit backing to Secretary of State Acheson, who expressed "concern and dismay" over the House decision in a letter to the President.

Acheson said that to let the measure remain scuttled would have a "disastrous" effect on United States foreign policy, not only in Korea but in other parts of the world where communist pressure menaces self-governing nations.

Two separate efforts to revive the legislation already were taking shape at the Capitol even before the President threw his full force behind the move.

The House Foreign Affairs committee received a bill, passed last year by the Senate authorizing \$150,000,000 in economic aid for the young Korean Republic.

Chairman Connally (D-Tex.) of the Senate Foreign Relations committee came up with a proposal to hook the Korean aid fund to a measure extending the time in which economic aid already approved for Nationalist China may be spent.

Acheson's letter said that not only Koreans, but the other peoples of Asia and members of the United Nations are looking closely at American conduct toward Korea, which the secretary said owes its very existence in large part of the United States.

States Successful ERP May Defeat World Communism

Peoria, Ill., Jan. 21.—(AP)—Paul G. Hoffman said today that a successful European recovery program might point the way to eventual overthrow of the communists throughout the world—including Russia.

But if the program fails, the economic cooperation administrator said, the Kremlin would take over all Europe under its program of "world conquest through the seizure of power by national communist parties."

"And don't think the United States isn't on the schedule," he added. "It is."

Hoffman's speech was prepared for a U. S. Junior Chamber of Commerce banquet at which the group honored 10 men whom it named as the nation's outstanding young men for 1949.

Hoffman said that with U. S. help Europe could make itself virtually communist-proof, by lowering the trade barriers which isolate the nations from each other.

"A reluctant decision on the part of the Kremlin not to march against Western Europe is, of course, only a partial solution of the problem presented by the plans of Moscow for world conquest," he said.

"But if the Russian leadership meets with signal failure in Western Europe, there is hope, at least, that the people of Russia will in time gain an understanding of freedom—and then, freedom itself."

Fate Of Tucker Of 'Dream Car' Fame In Hands Of Jury

Chicago, Jan. 21.—(AP)—A jury deliberated today whether the multimillion dollar Tucker "dream car" venture was a fraud or an honest business effort that collapsed for want of ready cash.

On trial are Preston T. Tucker, 46, handsome and well-groomed president and board chairman of the bankrupt Tucker Corporation and seven business associates.

Six hours after the jury of six women and six men received the verdict, the remaining three face case at 10:35 a. m. Central Standard Time, they still had reached no verdict. If they are still deadlocked by midnight, they will be locked up overnight—resuming deliberations tomorrow morning.

The jury went out for dinner at 6:15 p. m. (CST).

Upon their return they resumed their deliberations but at 10:15 p. m. sent word to judge Walter J. LaBuy that they would like to have him read portions of his instructions.

Judge LaBuy complied with this request. The rereading took about 15 minutes and the jury then went back into secret session.

The parts of the instructions reread dealt with the question of representations made by the defendants concerning the automobile, and the law regarding the matter of intent.

Testimony and arguments in the case lasted six months. While awaiting the verdict, Tucker and the other defendants lolled in the nearly empty courtroom or walked in the corridors of the federal building.

Only a handful of spectators waited around for the verdict.

If convicted, Tucker faces a possible maximum penalty of 15 years imprisonment and \$50,000 fine. Four other defendants could get like penalties. The remaining three face lesser maximum penalties.

However, the final say in the trial still could rest with judge Walter J. LaBuy. He has taken under consideration a defense motion for a directed judgment of acquittal. Thus, he could reverse any guilty finding if he saw fit.

The defendants are accused on various counts of mail fraud, security and exchange commission violations and conspiracy.

Tucker and his associates offered no defense testimony against government charges that they spent \$28,000,000 in promoting a revolutionary rear engine car but only sold produced 25—and those hand made.

The government said they raised more than \$17,000,000 in stock sales, \$8,000,000 from the sale of dealer and distributor franchises and \$3,000,000 from the sale of accessories.

All Of Quiney's Commissioners Of Fire, Police Quit

Quiney, Ill., Jan. 21.—(AP)—Quiney's three-man board of fire and police commissioners resigned in a body today.

The three sent letters of resignation to Mayor George Meyer, Jr., and the city council. Details of the letters were not made public.

The resignations of Paul A. Kurz, commission chairman, Roy F. Hoffman, and Mark Penick followed a closed meeting of the city administration last Thursday.

The Quiney Herald-Whig said today that sources who declined to be identified stated the mayor and city council declared their intention at the meeting of excluding the post of police chief from a new civil service program being set up here.

The board of fire and police commissioners was set up last July to handle the civil service program, which is expected to go into operation Feb. 1.

Quiney's corporation counsel, Henry Pollock, has said the city council can determine whether or not the post of police chief should be under civil service.

The fire and police departments were brought under civil service last spring by a state law which made it mandatory for cities between 15,000 and 250,000 population to set up a board of fire and police commissioners and place the fire and police departments under the program.

Indian Convicted Of Killing Man

Green Bay, Wis., Jan. 21.—(AP)—Sylvester Smith, 24-year-old Oneida Indian, was convicted today of first degree murder in the shooting of Kenneth Devroy Dec. 2.

A Circuit Court jury deliberated two hours and 10 minutes before returning the verdict. Judge E. M. Duquaine postponed sentencing until Monday to permit the defense to file any motions if desired.

Devroy, 27, was shot to death in a field near here and his brother, John, 18, was wounded. John Devroy, who has recovered, named Smith as his brother's slayer and said the two had taken the Indian to the field to demonstrate a gun Smith wanted to buy. John Devroy said the shooting was without apparent motive.

Chinese Reds Deny USSR Is Taking Over Parts Of China

Hong Kong, Jan. 21.—(AP)—The Chinese Communists today heatedly denied that Russia was taking over large parts of North China or that they were Russian stooges.

At the same time they themselves made new threatening gestures at Southeast Asia and Tibet.

This was strangely in line with a prediction last Sunday by Yen Hsi-Shan, Nationalist Chinese premier, that the Russians are going to give the Chinese Reds a free hand in southeast Asia in return for Russian control of Manchuria, Inner and Outer Mongolia and Sinkiang.

The Communist demand was aimed not at Yen, but at U. S. Secretary of State Acheson, who on Jan. 12 said the Russians were moving to take over those four large northern and northwestern areas.

Closely paralleling an angry denial issued today in Moscow by Soviet Foreign Minister Andrei Vishinsky, the Chinese Red statement declared the American version was compounded by "the most incompetent political charlatans."

DESIRE FOR THIRD TERM SEEMS TO GO WITH PRESIDENT'S OFFICE

Quiet reports are circulating that President Truman has decided to run for a third term. He is said to have told friends in his Administration not to begin looking for jobs to take effect after 1952.

Few people expect Mr. Truman to admit this intention now, if he has it. There's too much political advantage in keeping everyone guessing.

But if he should run again it would be the strongest evidence yet of how greatly he has changed from the days in 1915 when he was telling the world he didn't want the job—that it had just been thrust upon him. It would be a sign that Mr. Truman has been bitten by a bug that seems to bite most presidents.

We have a popular notion that the third term never really became an issue until Franklin D. Roosevelt's time. But the historians say otherwise. According to Arthur M. Schlesinger, Sr., Harvard historian:

"It is hardly an exaggeration to say that since Jackson every incumbent who finished his second term has been an active or receptive aspirant for a third one; and in this respect there has been no distinction between the parties."

Grant wanted a third term in 1876, was discouraged from trying, but then came back and bid for the office again in 1880. Grover Cleveland, finishing his second go in 1896, neither confirmed nor denied ambition for another term. His enemies in the Democratic Party effectively squelched any hopes he may have had.

Theodore Roosevelt, after expressly supporting the two-term tradition and bowing out to William Howard Taft in 1908, changed his mind and actively sought another term in 1912. Had Republicans united on him, he probably would have won.

Woodrow Wilson was an invalid in 1920, but historians are agreed he wanted a third term to vindicate his stand on the League of Nations. The right moment for him never came.

Though Calvin Coolidge appeared to many to remove himself completely by his "I do not choose to run" statement in 1928, numerous observers believe he actually was willing to be drafted for further White House duty. One intimate says he was gravely disappointed when the GOP convention named Herbert Hoover.

You can't explain this behavior among presidents simply by saying that, once kindled, ambition burns exceedingly bright. Historians see more to it than that.

They find that most presidents develop two worries: (1) that their "program" won't be finished unless they complete it themselves, and (2) that a man of true presidential stature can't be obtained to replace them. In other words, from the Olympian heights of the White House, all other candidates look less impressive than the incumbent. He comes to feel that he alone is qualified for the particular job to be done, that no one else can be trusted to carry on his "good work."

If Mr. Truman really is thinking seriously of another try in 1952, chances are that thoughts like these have at least crossed his mind. For they seem to go with the office.

THE DOCTOR SAYS:

Check Undulant Fever By Control Of Diseased Cattle

By EDWIN P. JORDAN, M.D.
Written for NEA Service

Brucellosis, of which there are several varieties, is a disease which attacks animals as well as human beings. It is estimated, for example, that there are about 1,300,000 dairy cattle and 800,000 beef cows involved. No one knows how many human beings are affected with undulant fever which is the principal human form of brucellosis.

There are some encouraging things about the situation. Brucellosis can be eliminated from any herd of cattle when the proper steps are taken under suitable directions, and not only from a single herd but from a whole area. This attack on the disease includes destruction of the animals who are carrying the disease, even though they are not seriously ill with it.

LAW RECOMMENDED

For the control of brucellosis in cattle, certain legislation has been recommended. On the national level, it is suggested that the secretary of the United States Department of Agriculture should be authorized to establish regulations governing the interstate transportation of infected animals or those exposed. States probably should sponsor a program of reporting, testing, vaccinating, and other steps.

The control and elimination of brucellosis in cattle, pigs, and other animals should eventually be of great benefit not only to the livestock and agricultural industries but also to human beings who acquire their infection almost always from eating or drinking contaminated products.

Although one of the most complicated diseases of our day, it is encouraging to realize that progress is being made and the future is so bright. Until eliminated in livestock, pasteurization of milk, careful cooking of meat and well-known sanitary precautions should be helpful in reducing the number of human beings attacked.

Note: Dr. Jordan is unable to answer individual questions from readers. However, each day he will answer one of the most frequently asked questions in his column.

The Doctor Answers

Question: I have white spots on the back of my hands and wrists. What can be done about this?—S.M.

Answer: This sounds like vitiligo or leukoderma. Most treatments which have been tried are not very successful. Coloring the spots with walnut juice (if you can get it), or a properly prepared potassium permanganate solution, have been used to make the spots less conspicuous.

Boiled liver kabobs—a delightful cuisine custom borrowed from the Near East that brings together good eating and nourishment in a clever manner.

For broiling, veal or lamb liver may be used. Have the liver sliced about 1-inch thick, and cut it into approximately 1½-inch squares. Counting six squares for each kabob will make a liberal serving.

In preparing the kabobs, use metal or wooden skewers. These may be obtained at most meat dealers. To provide fat, a strip of bacon is combined with the liver. Simply insert the skewer in one end of the bacon slice. Follow it with a square of liver, then a pearl onion. The slice of liver is continued to be threaded alternately with the squares of liver and onion. Before placing the skewers in the broiler, brush the liver and onions with melted butter, margarine or French dressing.

When broiling time comes, adjust the rack so that the meat will be 2 to 3 inches from the heat. This way the meat will cook slowly until the liver is browned and the bacon crisp. Turn the skewers several times so that the meat will be thoroughly cooked—allowing about 3 minutes for each side. Just before serving, sprinkle the kabobs with salt and pepper.

Other Versions

Kabobs are not the only unusual liver serving. Beef, pork, veal or lamb liver cut in strips and fried in deep hot lard is deliciously served with a flavorful tomato sauce.

Liver croquettes are another liver version. Brown liver for a few minutes in a small amount of lard or dripping, then grind it and combine with cooked rice, white sauce, paprika, grated onion and seasonings. Form the mixture into little croquettes, roll them in egg and bread crumbs and fry in deep hot lard.

Braising is the favorite method of cooking sliced or whole beef and pork liver and when ground they make delicious loaves or patties.

How To Pay Your January Bills

By Hal Boyle

New York—P—Bills! Bills! Bills! The January mail is full of them. So is our house—and so is yours. I'll bet.

After the first of the year it's pay-off time for Santa Claus.

It is the season when the average man realizes the old truth that in this life money alone is not enough. And he lives in dread of the installment collector.

A friend of mine is a case in point. Passing his home the other night, I decided to drop in and see his new television set.

I knocked half a dozen times but there was no answer. Puzzled, I went to a drugstore and phoned him.

"Oh, was that you knocking?" he said in great relief. "Come on back, rap twice—so we'll know it's you—and we'll let you in."

When I entered I found the whole family grouped around the video screen eating sandwiches. I asked, "Why all the mystery?" and my friend said:

"I couldn't make the January pay-off on the television set, and we're not answering the door for fear it's the installment man coming to take back the sack. If I can hold out to February, I'll be all right."

How well do I remember when I

tused to be in this pitiful plight—a January fugitive from financial woes. This was in the days when I used to handle the money in the family.

January, then as now, was the worst month. Once I hit on a solution that seemed fine. As usual the amount on the bills totaled more than the amount in the bank.

"Why don't I write out a check for each bill?" I thought, "and then put the checks in the wrong envelopes. Each guy will think I meant to pay him. It will be April by the time the whole business is straightened out, and by then I'll be solvent."

So I addressed all the envelopes and wrote all the checks, and laid out the checks and envelopes in two rows. Then I went into the reading room to finish a serial.

When I emerged, the desk was bare. Frances came in a few moments later.

"I had to mail a letter, so I mailed your checks, too, dear," she said.

"Of course, you put the right checks in the right envelopes?" I moaned.

"Oh, yes. I didn't make any mistake, dear!"

Not much! It was June by the time that mess was straightened out. By then we had given our patronage to another bank—it seemed a good idea.

And Frances, once and for all, had agreed to take over our finances.

That, men, is the only way to be sure your bills are paid and to enjoy a life free of financial cares. Let your wife handle the money.

It has worked out wonderfully in my household. Dollar worries? I don't have 'em.

Don't have any dollars either. Every system has a flaw. That's the one in mine.

Lovely Things For Lovely Ladies

Ensembles Chart Colorful Course

Colorful outfits for Spring include the apple green wool ensemble (left). A splatter print lines the finger-tip cape-coat. Parasol pink tuxedo-styled coat (right) banded with navy blue teams up with a matching pink suit.

BY EPSIE KINARD
NEA Fashion Editor

New York —(NEA)—The versatile ensemble, one of spring fashion's favorites, blossoms out this year in colors as fresh and easy on the eyes as the first garden flowers.

Such delicate tints as parasol pink and apple green, for example, point up the simple styling of slim-lined suits and matching coats.

Ensemble toppers, which vary in length from the full-length coat lined to the finger-tip jacket, team up skillfully with other togs, thanks

to contrasting bandings, print linings and subtle design details. Suits can also lead an independent life. They base their appeal on such solid virtues as classic simplicity of design and freedom from clutter or distracting frolic.

Typical of these new wardrobes—in-one outfit is an apple green ensemble of wool gabardine designed by Philip Mangione. The designer lengthens the finger-tip length cape to the finger-tip jacket, team up with a sprightly splatter print. A matching print scarf is box

ted at the neckline of the straight-cut suit. The flaring topper has cuffed sleeves and double fake pockets to pep up bodice interest. What gives the suit new style interest is the cut-away jacket.

Another example of the colorful spring ensemble is a full-length coat of parasol pink warsted, worn with a matching pink gabardine suit. Broad cuffs and tuxedo bandings of navy blue forecast the affiliation of this coat with spring navy togs. A stitched-down capelet rounds off the shoulderline.

Wardrobe Plan Cuts Costs

BY ALICIA HART
NEA Staff Writer

Every feminine closet and dresser drawer is apt to be burdened by too many "toe covers." These are those useless but attractive objects which give a woman a sort of emotional charge when she goes shopping. These superfluous additions to her wardrobe may or may not be bargains. The covers are sometimes marked high, sometimes priced low. They are always costly if they satisfy no real need and take up additional space in crowded quarters.

A toe cover usually fits in with which the buyer owns or ever will nothing in a wardrobe. It may, for own. Meanwhile, she passes up the example, be a jeweled kid evening white gloves which she really needs.

belt which a woman can't resist buying. She tells herself that she can use it for an evening dress some day, but she never does. In buying it, she passes up a tailored leather belt which she could use. The kid belt stays in a drawer month after month and is finally given to a friend or relative who probably won't find a use for it either.

But that doesn't prevent some women from buying more toe covers. There is, for example, a handsome handbag on sale, a really good one which is a real buy. It can't be resisted. The only thing wrong with it is that it's in a hound's tooth check wool bound with blue calf. It's apt not to fit in a single outfit.

There are only two ways to battle down the temptation here: by using will power and intelligent wardrobe planning; by making up your mind never to buy anything which won't be useful or a workable part of a wardrobe. Once a wardrobe is planned, a woman's increased stamina for resisting temptation will come in handy.

Cubes of beef or lamb may be marinated in a mixture of lemon juice and olive oil, salt, pepper, and oregano, and then put on skewers with slices of green pepper and onion and broiled.

Facial From Creamy Suds

BY ALICIA HART
NEA Staff Writer

Those soap-and water showers who never think that their faces are clean unless well-scrubbed will welcome a soap that helps to replenish the oils that are washed off the skin.

Such a soap unites detergent agents with a rich skin lotion and the two aids work in a happy union at the same time. The great contribution that the lotion makes to this soap, makers claim, is that it neutralizes all traces of harshness. When lathered, it produces suds like

heavy whipped cream. Best way to draw the creamy oils used to remove the soap and the skin from this soap is to have its suds: is rinsed in first lukewarm, then cool over the face, leave it on to dry mask water fashion, and then soften it again. Severe injuries to her right foot were suffered by Mrs. Ella Davis, 63, of 873 West State street when she was attempting to board a city bus Saturday morning near the south gate of the Jacksonville State hospital on South Main street. She is an employee of the hospital.

Mrs. Davis is reported to have been dragged a short distance as the bus moved south. Her screams were heard by the driver, Amos McCurley, 136 Hardin avenue, and several women on the bus.

McCurley went to the woman's assistance and was joined by several others persons. Cooney's ambulance took Mrs. Davis to Our Saviour's hospital where she was attended by Dr. E. C. Bone.

Examination revealed extensive lacerations of the foot, a broken bone in the foot and several fractured toes.

Several members of the police department went to the scene of the accident. Marie Strubbe of Jacksonville route 2 who was standing on the sidewalk when the bus pulled up, told police officers that Mrs. Davis' foot was caught in the bus door and that she was dragged as the bus moved south. The witnesses said one of the wheels ran over Mrs. Davis' right foot.

There were conflicting accounts of how the accident happened, as a short time later McCurley told police that the woman's foot was not caught in the door.

Mrs. Davis had completed a shift of duty at the State hospital and was starting home when she was injured.

Figure Morgan's Share Of Budget At \$17,670,000

Taxpayers of Morgan county will be required to dig down for \$17,670,000 if President Truman's \$42.5 billion budget is accepted without revision.

"That's either in taxes to be paid in 1950-51, or in debt to be passed on to our children for some future date," said George E. Mahin of Springfield, Executive Secretary of the Taxpayers' Federation of Illinois.

This county's share is based upon its proportion of the population of Illinois. The State's share of the proposed budget is estimated at \$3,842,000,000 (3 billion, 842 million dollars), and this estimate is based upon the proportion of total federal taxes that were paid by Illinois taxpayers in the fiscal year ending in 1949. "That's a lot of money," said Mahin. "It means Illinois taxpayers will be paying more than 11 times as much for Federal government as they paid in total in property taxes to support all their local governments in 1948. It is six times greater than all the money the State of Illinois expects to spend this year to operate hospitals, build roads, support schools and colleges and to carry out all the other functions of state government."

CHICAGO LIVESTOCK MARKET REPORT

Chicago, Jan. 21—(AP)—A sharp drop in marketings at all midwestern markets brought about a rally in hog prices this week. Hogs moved today within a \$13.75 to \$17.10 range, up 50 to 75 cents from last week-end.

Hog receipts at 12 major markets totaled 394,000 head against 518,143 head in the previous week, a slump which followed a request by the Agriculture department for more orderly marketing. An advance in dressed pork prices also helped the live hog market.

Common and medium grade steers and heifers closed the week 50 cents to \$1.50 higher, finding a broad outlet each day. These offerings invariably were the first to be cleaned up as soon as trading started. In contrast, better types were only steady to 50 cents higher.

A big reduction in receipts supported a gain of 75 cents to \$1 in slaughter lambs for the week. Dressed prices eased in a dull trade.

The Twentieth Century Fund reports that the largest part of America's wartime increase in total output came from that more people worked rather than from increased production.

Mt. Sterling Captures Title At Winchester, Whips Host Five 40-36

Winchester—A fired up Winchester basketball team held the championship of its own tournament for three quarters here Saturday night but slipped in the last period and gave way to Mt. Sterling's speedy Green Hornets 40-36. Carrollton downed the Waverly Scotties 50-34 earlier in the evening to claim the third place trophy.

Besides staking claim on the big championship award with a stirring comeback before the packed house, Mt. Sterling carried home two other trophies. The Green Hornets' cheer-leading sextet was given the prize for the best yell section and the team was named the most sportsmanlike and given an award for that virtue.

E. W. Posey's Wildcat five, playing an inspired brand of basketball before the Winchester partisan crowd, came back from behind a first quarter 10-4 deficit to go out Tront 17-12 at halftime when Mt. Sterling shooting left off badly.

Cummings Leads Winchester
With ranky Bo Cummings leading the way Winchester stayed ahead of Mt. Sterling 28-25 in the third canto. Hornet Dick Clark warmed up early in the last chapter and brought his club up even with the Scott county five, though Cummings was fighting to keep Winchester in the lead.

With the count knotted at 36-36 and two minutes of play left, Clark bucketed a short shot and Steinbeck, Hornet guard pumped in a long one to add the clincher.

Bo Cummings was top scorer in the tussle, netting 18 tallies. Clark scored 11 for Mt. Sterling.

Mitchell Scores 22 For Waverly
Pickles Mitchell, who was probably the outstanding player in the meet, scored 22 points in the consolation battle but that was where Waverly's punch ended as Dick Hamann's Carrollton Hawks had little trouble bumping the dark horse Scottie quintet for third place.

Carrollton led at every stopping point. Hawk scoring was evenly divided. L. Smith and Buddy Moss were top scorers with nine points each. Ray Hanson, athletic director at

Western Teachers college, presented the trophies after the last game. Winchester principal Allen Ligon thanked the crowd for its splendid cooperation throughout the tournament and announced that he was well pleased with all phases of the 28th annual meet which enjoys the distinction of being the oldest of its kind in Illinois.

EDITOR'S CONDITION REPORTED IMPROVED
Detroit, Jan. 21.—P.—Grace hospital today reported improvement in the condition of Editor-Columbian Malcolm W. Bingay, 63.

A hospital spokesman said it was indicated now that Bingay would recover from critical burns suffered in a freakish incident at an AFL union banquet Tuesday night.

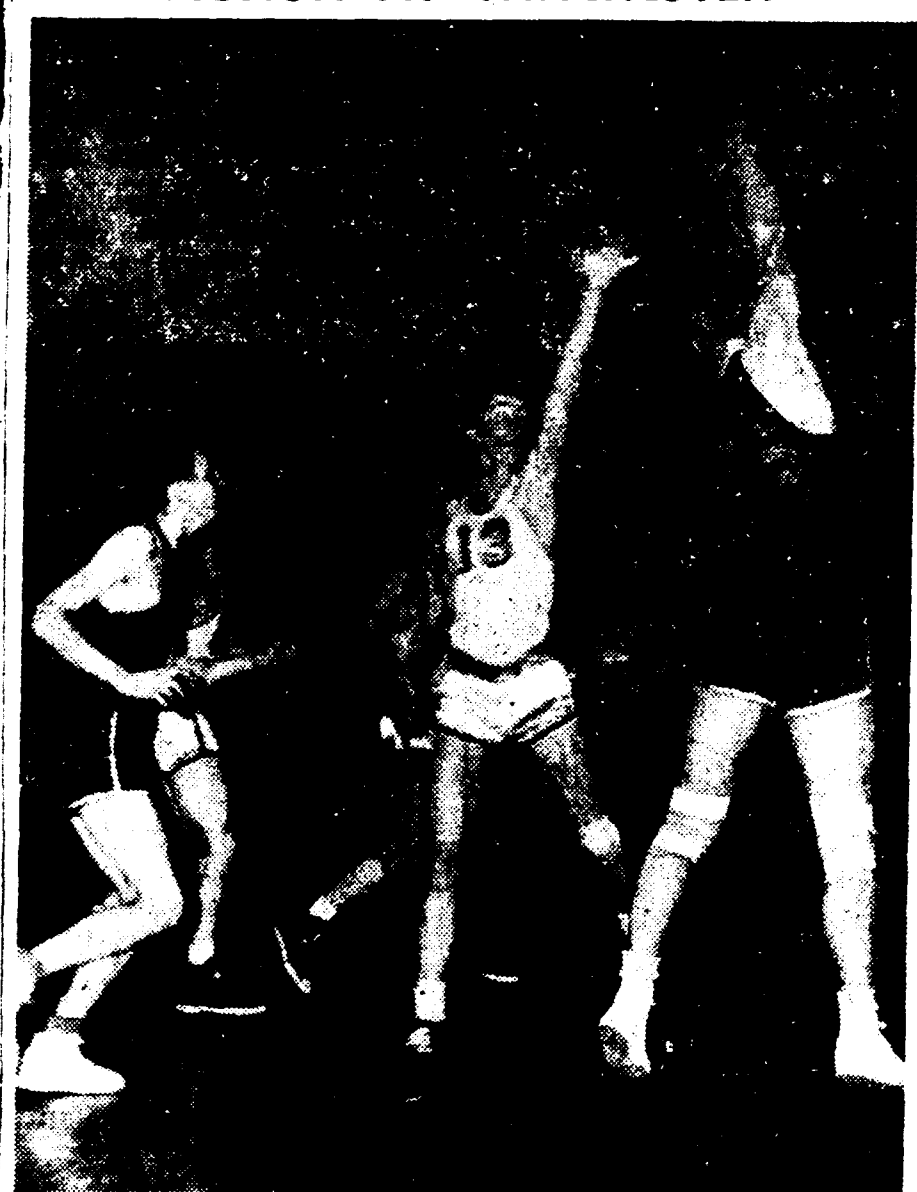

Bingay, editorial director of the Detroit Free Press, was burned in the explosion of a flaming mixture of coffee and brandy.

The brew, known as "Cafe Diablo" for Devil's Coffee, was being prepared for serving to banquet guests. Other guests, less seriously burned, are recovering.

GASPERI LIST DELAYED
Rome, Jan. 21.—P.—Premier Alcide De Gasperi's attempts to form a new Italian cabinet were delayed again today, this time by reluctance of the ultra-conservative Liberal party to accept his proposed land and electoral reforms.

De Gasperi now was not expected to submit a list of ministers to President Luigi Einaudi before Monday or Tuesday.

Delbert "Pickles" Mitchell (55) better than 20 point per game averages high into the air and stretches age with the fourth place Scottie a muscular shoulder, displaying the entry.

This picture, taken during the most talked about play in the just-ended Winchester tournament, shows Andell (13) of Winchester trying to block "Pickles" shot and Laugharn, Waverly center, looking on with rapt attention.

"Pug" Portwood, Carrollton guard, past the play and watches helplessly as the lay-up shot during the Mt. Sterling-Carrollton semi-final slugged into the Winchester gymnasium for every session, is shown next speed merchant, has been swept standing in the entrance.

By Bob Morris

Our job may be a basketball fan's delight, but we're sure glad that this week is over. Though not usually prone to wish our life away, the 18 basketball games we witnessed this past week is carrying a good thing a little too far.

Saw upsets galore among these 18 games, too. Most outstanding was Winchester's gallant rise to the finals of its own invitational tournament by soundly trouncing the number-one rated Grigsfield aggregation in the quarter finals.

Though it wasn't rated an upset by Jacksonville college fans, Illinois college's 21 point victory over Illinois Wesleyan here Saturday night was certainly more than even the most optimistic fan could predict.

The Hilltopper basketballers may be great shots but they're sure poor mathematicians. They claimed all week that they'd take the Titans by ten points, and then come through with twice that amount. Evidently they don't know when to stop.

That win, which pushed the local conference record to 2-1, should make CCI moguls sit up and take notice once more after interest had lagged when the Blueboys lost to North Central and Concordia of St. Louis by a total of four points. A lie his value to the Blueboys, his recent Decatur ball club (Millikin by name) will probably find a rugged trail to Jacksonville next Saturday night.

Our Saviour's Nips St. Mary's, New Berlin 25-15

The Our Saviour's kid eagers, recent victors in the David Prince invitational grade school basketball tournament, kept up their winning ways by downing St. Mary's of New Berlin 25-15 at Jacksonville Saturday night.

Jimmy Costello was high gunner for Our Saviour's with 11 points. K. Sullivan scored eight for St. Mary's. The Our Saviour's seconds won 27-10.

White Hall—The Lions club of White Hall met at 7 p.m. Wednesday at the Griswold Annex and after the supper heard several recordings and guitar selections by Jean Short of East St. Louis. INCUBATORS FOR BABY PLANTS
Davis, Calif. —P— Test-tube incubators are being used here to nurse delicate young hybrid plants through their earliest stage. Many hybrid embryos die easily in the first generation. Dr. Paul G. Smith, truck gardening expert at the University of California College of Agriculture here has worked out a way to keep them alive until the second generation produces the customary stronger traits. He keeps the embryo seedlings in warm test-tubes.

MARYLAND HAS WORM WEED MONOPOLY
Washington —P— Worm weed is almost a Maryland monopoly, says the U. S. Department of Commerce. Worm weed is a plant which produces an oil to stop hook worms and round worms.
The scientific name is chenopodium. Almost the total world supply is grown on a strip of land five miles wide and 20 miles long, mostly in Montgomery county, Md. Growers say that when it is grown elsewhere, it produces very little oil. After distilling the oil, gross profits total about \$150 an acre.

Anna Louise Rataichak Heads M'Murray Group

A large and representative group of MacMurray alumnae and their guests attended the luncheon meeting held by the Jacksonville MacMurray society at the Dunlap hotel on Saturday.

Mrs. Howard Corey, president, conducted a short business meeting, when minutes of the last meeting were read by the secretary, Mrs. Harry Hoffmann, and a slate of officers for the ensuing year was presented. The new officers include:

Miss Anna Louise Rataichak, president; Miss Agnes Paxton, vice president; Mrs. Isabelle Green, secretary; and Mrs. Lester Johnson, treasurer. Miss Amy DeMotte, chairman of the Alumnae organization, presented some tentative plans which will have further consideration by committees to be appointed.

President McClelland extended greetings of behalf of the College to the group. Dr. Frieda Ganser, professor of German at MacMurray, gave a most interesting account of her impressions of the war-torn countries she visited last summer—Belgium, Italy, Austria, and Germany. She went into considerable detail regarding the attitudes of the people and the problems of government in Western Germany. She told of meetings with many representatives of the Christian Democratic party, which is now in power, as well as with members of minority groups, and she brought into focus some of the many problems which remain to be solved by the Germans in conjunction with the western powers.

In addition to Jacksonville alumnae guests were present from Virginia, Winchester, Roodhouse, Waverly and Alexander.

Memorable Concert Given By National Male Quartet

By Rhoda Samore
The National Male Quartet again gave a memorable concert in the Jacksonville high school auditorium Friday evening for members of the Civic Music association who, by popular request, had returned these widely acclaimed singers for another evening of beautiful music.

The program, which ranged from the majestic splendor of Schubert's "Omnipotency" through the unforgettable beauty of operatic numbers and negro spirituals to the delightful interpretation of the ever-popular "Big Brown Bear," was varied enough to please lovers of all types of songs. In addition, the chosen songs were ones which showed to splendid advantage the singers' wide range of abilities. The power of their voices, the exquisite line of their "bel canto," their excellent diction, the unusual range of each one's voice, and above all the oneness of spirit displayed throughout the entire program held the audience in rapt attention and required the rendition of several encores.

"Hours Of Diligent Practice"
The personnel of the quartet and its accompanist has remained the same with the exception of Gene Tobin, whose clear lyric tenor added much to the quartet's full beauty of tone. Attilio Bagliore, dynamic leader of the quartet, was in his same genial form and in especially good voice. The baritone and bass, Vernon Sanders and Bruce Mackay, sang with warmth and showed by their range and power that their voices are equal to the demands of their program. The men obviously love their work and sing with an ease and style that bespeaks long hours of diligent practice.

No small part of the National Male Quartet's success is due to the skill and artistry of their accompanist, Walter Hatchek, whose playing for them and as a soloist was outstanding in technique, tonal beauty and sympathetic understanding.

Reception Follows Concert
Following the concert, a reception honoring the artists was held in the parlors of Grace Methodist church for all members of Civic Music. Hosts and hostesses included officers of the association and interested members headed by Mrs. Hugh Green, general chairman.
